

BEST PRACTICE –1

Green and Clean Campus- A Need of Time

Objectives of the practice

- 1.Students should enhance and improve an attitude towards the importance of Green campus..
- 2..Students should aware about the importance of cleanliness.
- 3.To elevate the quality of the environment and create public awareness about the conservation of environment.
- 4.Developing the quality of sustainable development in our country.
- 5.To control the excessive pollution.
6. Students should develop their own positive mindset with knowledge, understanding and awareness about the environment

2.Context

The main aim of the practice is to impart knowledge, create awareness, develop an attitude of concern and nurture the necessary skills to handle the environmental issues and challenges. The rural village region and green landscaping of college are the necessary features for shaping and sustaining an eco friendly atmosphere.

3. The practice

1. Plantation- Every year trees are planted in the college and nearby villages by the students to create awareness about the environment. Every year about 50 saplings are planted by our staff members and students.
2. Organizing workshops- The College organized a workshop to aware the students regarding the conservation of environment and also given knowledge on how to create seed ball and how to plant it.
3. Conducting lectures- On the occasion of World's Earth Day, World Environment Day and World Water Day, various lectures were organized on the importance of Tree Plantation among the students in the college.
4. Organizing the tour and various competitions- Slogan competitions, quizzes and an educational tour is organized every year in the college.
5. Plastic Elimination Program- Under the plastic elimination program, plastic was collected from nearby Khai River and Government Hospital and a rally was organized.

Evidence of Success

1. Through the various activities students are made aware of environmental issue.
2. Environmental awareness helps students understand how their decisions and actions affect the environment.
3. Through periodical tree plantations, flora and fauna on the campus have been enriched.

Problems Encountered and Resources Required

1. Lesser awareness among the students and community towards environmental issue aggravates the problem levels.
2. People have no knowledge about the factors that come in the environment and the inter-relationship of those factors.
3. It is difficult to make people understand about environment
